From the Editor

Inside you can find pictures from the Christmas Party and the results of the Christmas competitions. The food was excellent as usual

and it was nice to see lots of entries for the competitions. Congratulations to all the winners. All entries were of a high standard.

Margaret Mitchell-King (who's father Cliff King donated the Austin's & Rhodes trophies) gives an update on Austin's & Rhodes' progress.

Our next meeting is the AGM on Saturday 10th January 2026. Please attend and have your say.

Finally, the calendar of events can be found on the back page 40. Thanks to Paddy Byrne who has booked the demos for 2026.

Please book your place for my Hands-On Pen Turning session at Coombe on Saturday 17th January. I will provide a basic 7mm twist pen kit and pen blank. Places are limited to 4 per morning/afternoon session but you can just come to look if space permits.

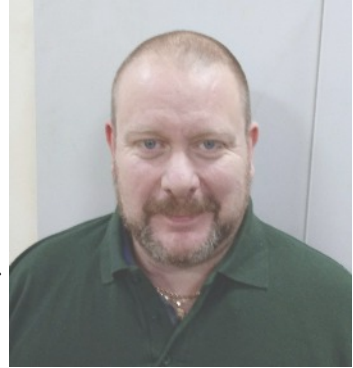

Regards

Rob

Chairman's Jottings

Hi everyone hope you are all well,

I would firstly like to take this opportunity to wish you all a very merry Christmas and a Happy New Year.

We have reached the end of our program of events for 2025. I would like to thank the committee for all of their support over the year and also to all the members for their hard work with raising funds for the air Ambulance. It has been a challenging year for fund raising, as many people just have not wanted to spend with the financial uncertainty throughout 2025. But I am so proud of the hard work our club members have put in to raise £1000 for the Air Ambulance again this year. A special thank you to Jill and Alison for their hard work in selling raffle tickets and to those that have supported and helped during the events throughout the year. I don't have to name you all, you know who you are.

The Christmas party took place on the 13th December with around 24 attending and guests. It was great to see a good turnout of pieces turned by members for the end of year club competitions, with some new members entering pieces and the usual suspects also adding their pieces.

Looking forward to 2026 we have been busy looking at what events and demos are going to be in the calendar. Paddy has been busy finding demonstrators and we, as a committee, have been looking at possible new events to help with both raising charity funds and club funds during 2026.

We are hoping to have a tri fold with all information confirmed, as far as possible, ready for the AGM in January.

Club and AWGB memberships are now due and will be taken after the AGM meeting and at the workshop on the below dates.

Sunday 11th January 10am - 11.30

Sunday 18th January 10am - 11.30

Sunday 25th January 10am - 11.30

Membership fees 2026

Club Membership £15.

AWGB membership Single £24 - Family £36.

These can be paid using Cash, Card or bank transfer.

I look forward seeing as many of you as possible at:
Walsgrave Baptist church. Saturday 10th January AGM meeting.

I hope you have all enjoyed turning throughout 2025 and keep turning into 2026.

That's all from me for now. I hope to see you all in the New Year.

Stay safe, keep turning

Remember YOUR Club needs you and your support.

Kind Regards

Lee

Crown Hand Tools

I would like to thank Crown for sponsoring this month's newsletter. My first set of woodturning tools were a boxed set of Crown tools and I am still using them today, after many years good service . They have a great range of tools for the woodturner. I particularly like my M42 steel bowl gouge that holds its edge even when being used by students during workshop lessons.

Editor

Crown Hand Tools (A Company Profile)

Proudly Manufactured in Sheffield England

As a family owned company, Crown Hand Tools and our loyal staff have been proudly manufacturing traditional woodwork-ing hand tools for over fifty years.

Handmade to the finest quality, Crown has found the perfect equilibrium between tradition and innovation, making our tools beautiful as well as functional.

Our Master Craftsmen hand forge, temper and grind our tools as our ancestors did, whilst also using modern processes and materials, such as Cryogenics and Powder Metallurgy.

This combination of old and new techniques ensures we are giving our customers what we consider the best quality hand tools available.

INTRODUCING THE NEW REVOLUTION

The 'revolution' is a completely new hollowing system from the world leaders in fine turning tools. From its beautifully weighted handle to its cryogenically treated cutting tips the 'revolution' is designed to be the finest hollowing tool on the market.

The modular articulated design allows the woodturner the freedom and flexibility to configure the tool for any situation. From straight vases to heavily undercut hollow forms the 'revolution' has it covered.

At the heart of the 'revolution' is the new fully depth adjustable 'super ring' the revolutionary design of the 'super ring' ensures clean efficient wood removal at all times with 5 different cutting tips and modular articulation design the revolution is a must have tool for all woodturners.

- Supplied with 5 different cutting tips for unrivalled flexibility.
- Clever modular design allows for many different configurations.
- All collars and collars beautifully machined from solid 'marine grade' brass billet.
- High performance cryogenically treated cutting tips for vastly improved wear resistance.
- New adjustable 'Super ring' allows ultra efficient wood removal without clogging.
- Slim-line articulated tip design for unrestricted access to those hard to reach cuts.
- Expandable.
- Hard made in Sheffield, England.

Coombe Christmas Party 2026

Another year, another great Christmas Party. Lots of great food and drink. Giles organised the raffle and competitions. Lee presented a cheque for £1000 to the Air Ambulance representative. I won a bottle of booze on the raffle. What's not to like?

Below: The trophies on offer to the competition winners.

Bottom: The raffle prizes.

The Motor Control Warehouse

Motor Control Warehouse offers high-quality **inverters and motors** specifically designed for lathes, delivering performance, reliability, and flexibility for both hobbyists and industrial workshops.

Run 3-Phase Motors on a Single-Phase 230V Supply

With our inverters, you can easily run a **3-phase motor from a standard single-phase 230V supply**, provided the motor is rated for 230V 3-phase operation. This opens up the possibility of using powerful 3-phase motors in environments where only single-phase power is available, without compromising on performance.

Full Speed and Direction Control

Our inverter solutions allow **complete control of motor speed and direction**, giving you precise operation for machining tasks. Whether you need slow, controlled cuts or rapid movement, our systems give you the flexibility to optimise your lathe's performance.

Cost-Effective and Reliable Motors

Unlike traditional single-phase motors, these 3-phase motors **do not require capacitors**, making them **more cost-effective and highly reliable**. Fewer components mean less maintenance and reduced risk of failure, ensuring your lathe keeps running smoothly.

Smooth, Adjustable Ramped Starts

Inverters provide a **fully adjustable ramped start**, which:

- Reduces start-up currents
- Minimises mechanical stress on gears, pulleys, and bearings
- Extends the life of your lathe's moving parts

This feature makes the start-up process much gentler on your machinery, giving you peace of mind and longer-lasting performance.

Why Choose Us?

- Expert support in selecting the right motor and inverter combination
- High-quality motors and inverters suitable for lathes and other machining equipment
- Reliable, cost-effective solutions for both industrial and hobbyist applications

THE MAIL ORDER ABRASIVE SPECIALISTS

Sanding needs as much care as construction and design. As much care needs to be taken in sanding as in the construction of a piece of work. A few minutes poor sanding technique can irreversibly destroy great craftsmanship and many hours work.

THE ULTIMATE ABRASIVE! RB406 J.FLEX. TRIAL PACK

1M OF CLOTHINEACH OF THE FOLLOWING GRITS

P80, P120, P240 AND P320 **£14.75** INC VAT ORDER CODE **12806 RB406**

J.Flex is the best abrasive for every workshop. It's ideal for turning, woodworking and metal working. The distinctive blue abrasive with the yellow backing is the softest and most flexible abrasive we have ever discovered. The ultimate abrasive for all kinds of woodworking, especially sanding in acute angles. This cloth can be twisted and folded without grain dis-adhesion. Rolls are 100mm wide. **ALSO AVAILABLE BY THE METRE**

VELCRO-BACKED ROLLS.

TRIAL PACK 1M OF P100, P150, P240 AND P320 PLUS A SAMPLE STRIP OF VELCRO REPLACEMENT WITH PEEL OFF SELF ADHESIVE BACKING. **£14.75** INC VAT ORDER CODE 13159 ALSO AVAILABLE BY THE METRE. PLUS, IT PAYS TO BUY BIG. WITH OUR BULK RATE PRICES YOU'LL SAVE MONEY ON THE GRITS YOU USE MOST.

Cut off any length to suit your own sanding application. Every workshop should have at least two or three grades of this to hand. Especially manufactured by Hermes abrasives for us. Ideal for those shop made sanding devices which you can now make to your own specification. Hook and loop, or velcro attachment does away with the unpleasant task of clamping the paper to the machine, allows rapid changing of the sheet and encourages the use of more grits extending the finish quality and life of the abrasive. Rolls are 115mm wide.

For your free catalogue call 01636 688888 or e-mail sales@abrasivesplus.com or visit our on-line shop at www.abrasivesplus.com where all our products are featured and it's free carriage!

Roger Warren-Finding Competition Entries

Margaret Mitchell-King

Thank you to all concerned for another year of Coombe Abbey Newsletters. As a past member it is lovely to see how the Club continues to thrive. We noted that the competitions were being scheduled for December, and so the participants and winners will have been awarded in time for the January edition, hence my writing now to be included in it.

The Austin and Rhodes trophies were donated by my family, as my father Cliff King and I were members at the time of their birth. It is great to see their trophies still encouraging woodturners. The boys (now 24 and 22 years old respectively) still enjoy hearing about the entrants.

Austin graduated in July 2025 with a high class of BEng, a Diploma in Business Studies and a £100 award for the highest dissertation mark - not bad for an ice hockey player training twice a week with a 54 game season throughout September - April! Austin has since chosen to pursue his professional sporting career by going full-time, and secured a contract in the Elite League (top UK League, the one that Coventry Blaze play in) for Glasgow Clan. It was a tough call to move to Glasgow, but he went for the quality of the coach and his management team. He's currently living the dream (but with only one day per week off!) training every day and playing home and away games each weekend. Needless to say, we prefer to see him on his away matches as they're nearer to home than Glasgow! Austin plays Offence (Forward) as #No 11 for the Clan and has previously been a GB player at U18 and U20 levels.

Rhodes meanwhile, is back at the University of Warwick following an industrial placement year, and is now in his final year, so it's a tough call to combine his ice hockey with his studies and exams. Rhodes plays in the League below Austin, the NIHL (National Ice Hockey League) the second top league in the UK. However, he is also on a two-way contract with Belfast in the Elite League and again did pre-season training with them and has played a few games when called upon. He is the top Defence player for Telford Tigers, his NIHL team, and also a previous GB player at U18 and U20 levels.

So, to all members of the Club we wish you a very productive 2026, and long may the club continue to thrive. Congratulations to the new winners of the December competitions.

With warmest wishes,

Margaret Mitchell-King and family.

Margaret Mitchell-King - continued

Austin #11 for Glasgow Clan

Rhodes for Telford Tigers #91

Workshop Teaching

Tim's third lesson, a natural edge bud vase. Taught by Rob Sheehan.

Christmas Jokes

I got a universal remote control for Christmas.

That changes everything.

What do you call an old snowman?

Water.

Who does Santa call when his sleigh breaks down?

The Abominable Towman.

What's a reindeer's favourite singer?

Beyonsleigh.

How did Rudolf learn to play piano?

He was elf-taught.

What do you call a Yeti with a six-pack?

An abdominal snowman.

What nationality is Santa?

North Polish

What do you call Santa when he loses his underpants?

Saint Knicker-less.

What do you call a broke Santa?

Saint Nickel-less.

A snowball in your left and right hand, what do you have?

Frosty's full attention.

What's the difference between snowmen and snowwomen?

Snowballs.

Knock, knock. Who's there? Noah. Noah who?

Noah good Christmas joke?

What's green, prickly, and flies through the air?

A holly-copter.

Why is everyone thirsty at the North Pole?

No well.

What did Adam say on the day before Christmas?

"It's Christmas, Eve!"

How does Darth Vader know Santa is real?

He can always sense his presents.

What goes "Oh, Oh, Oh"?

Santa walking backward!

Workshop Notice

Coombe Abbey woodturners

As agreed at the AGM on the 4th January 2025

From 1st February 2025 we will be introducing a £1 entry fee into the workshop for all members.

This will include the use of the workshop & equipment Also to include tea & coffee you will also get entry into the 50/50 raffle each day you come into the workshop.

Clarification to the above notice:

The charge does NOT apply to tutors who are teaching a student, nor to committee members when attending a committee meeting.

This will not cover all costs but will go a some way to helping the club to run the workshop through the year and give members a chance of winning a little more money each month.

Thank you for your support
