**Please forward your News, Stories and Photographs to:-  
Graham Ball - Newsletter Editor -**

## From the Editor

We had another great demonstration from Mick Hanbury at Walsgrave Baptist church but the attendance was rather disappointing. I assume that

some members are still reluctant to emerge from the pandemic to meet and mix with others.

We have a vacancy for an Events secretary so if you can spare some time to fill this role then please get in touch with a member of the committee and discuss it with them.

We need club members and their guests to register their names for the Christmas Party, all the details are on page 18 of this newsletter the sooner you put your names forward the better to aid the caterers in determining how many to cater for. Also we need you to enter your piece of work in the competitions, details of these are on page 17.

Now you will notice that this months newsletter is a few pages shorter than usual because of lack of content, so please put your thinking caps on and send me pictures of your work or maybe an article or two which may interest fellow club members. If you have any ideas then give me a call and we can discuss them together. In the meantime stay safe and well and enjoy yourself.

*Graham*

## Chairman's Jottings

Hello to you all once again and I do hope all of you are well.

It was so nice to see more members using the workshop during the week. What a change!!

A little reminder to you all, The workshop can be opened on a Tuesday and a Sunday if enough members can make those days. Please contact Lee Cartwright for Sundays and Graham Cashmore for Tuesdays, their contact Telephone numbers are on page two of this newsletter. Just to let them know you will be there.

Brian Edwards

We have successfully found a volunteer to be acting Vice Chairman as of now, and he is willing to stand for this position at the AGM in January. Many thanks to Peter Carless for helping us out in coming forward.

Permission has now been granted for us to put a display unit in what is called The Street in the visitor centre at Coombe. Our utmost thanks go to Don Kildin for making the new unit. This will come as a flat pack and any members who would like to assist us in assembling this would be much appreciated.

As a club, we are now moving forward and trying to forget about this past 18 months of Lockdown. We know this will take a bit of time but I am sure with everyone's help we'll get there.

Training on the lathes should be back on by the end of January, but it has been difficult trying to get the distancing correct in the workshop between the members.

Any member who could assist us in the training would be marvellous. Please let us have your names.

Will all members please put your names forward for this years Xmas Party. We need to know this for the catering etc.

Our next meeting at the Baptist Church will be 13th November.

**“A Woodturning Demo” by Dennis Wake.**

This will be his first visit to ourselves and I’m hoping he gets a good turnout.

I will ask Graham to publish the competition pieces for the Xmas Party. Sharpen all your tools and get practising on your pieces of wood.

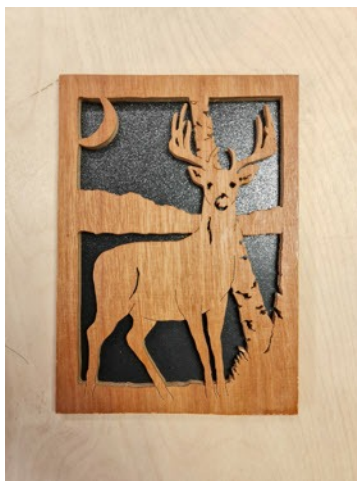

I will sign off now and I’ll look forward to seeing you all.

Keep Turning

*Brian.*

### A Company Profile

Turners Retreat is the North of England's premier store. We are primarily a mail-order retailer who's aim is not only to provide a first-class service but to provide you with a wealth of products from around the world – several of which are only available from ourselves. Just a simple call or email will ensure you receive a copy of our latest 88-page catalogue. Furthermore, the most convenient way to order is through our website [www.turners-retreat.co.uk](http://www.turners-retreat.co.uk) There you can peruse our latest products and services at your leisure – its always open! In addition, we would welcome you to take a trip and visit us at our store. Conveniently located just off the A1 south of Doncaster and close to major motorways and link roads. Our store is open 6 days a week, call in and browse around, taking a look at our well-stocked wood stock (which is now available by mail-order!). Our well equipped teaching facilities allow us to offer a range of courses suitable for beginners and experienced woodworkers alike. If you should plan a trip, why not make it on one of our demonstration days (2nd Saturday of every month) where we invite some of the UK's top experts for you enjoyment and inspiration.

# 3-Piece Mini Carbide Turning Tool Set

The Mini Carbide Turning Tool Set is ideal for turning small projects, such as boxes and goblets, and is also extremely useful for turning pens in wood and acrylics. The set consists of three tools, each with a rubber handle for extra grip and comfort to reduce fatigue. The carbide cutters will stay sharp for a long time and when required, they can be rotated to give a fresh edge or can simply be replaced. Each tool features its own cutting profile; round, square and diamond-shaped, perfect for roughing out, finishing and fine detail work.

*"This set is really good and exceeds my expectations. A good selection of tools presented in a robust carry/ storage case. Really good value for money."*

Phill, Turners Retreat customer

# A Demonstration by **Mick Hanbury**

At Walsgrave Baptist Church on Saturday 23rd October 2021

*Photography by Giles Headley*

*Report by Graham Ball*

We have enjoyed demonstrations by Mick Hanbury before and this one was no exception to that trend. Mick always has an interesting project to demonstrate and his demos are always punctuated by his humorous comments.

On this occasion Mick showed us an example of the piece that he was going to turn for us which was a lidded vessel on a raised base and with a finial, a further enhancement was inside the lid making five separate pieces to turn.

Chairman Brian Edwards introduces Mick Hanbury

An Example Piece

Mick explained the choice and preparation of the wood for the Bowl and lid and then set to work on turning the bowl section. The outside shape was formed first and he used a saw tooth bit in the base to cut a socket for the raised foot to eventually be located in. This socket would also be used to remount the piece in the chuck for turning the inside of the vessel. When Mick was happy with the shape of the piece he turned his attention to the lid which was done in a similar fashion to the bowl but being careful that the sizing was accurate.

This done now it was time to form the base and of course there were a few things to consider namely height, diameter and any ornamental features. Mick discussed all these with us and when decided proceeded to finish the Foot. The finial was the next part to be turned and here again

call 01530 516926 for your FREE catalogue  
or visit our website [www.charnwood.net](http://www.charnwood.net) or showroom at  
Cedar Court, Walker Road, Bardon Hill, Leicester, LE67 1TU

the same considerations were made as for the foot. Mick continued then with the piece he wanted to put in the underside of the lid and again a discussion took place to ensure it was in keeping with the rest of the piece. Mick

kept all the pieces separate and said that he wanted to finish them individually rather than to glue them in place

The assembled Vessel

The newly turned vessel on the left

and finish the assembled piece. This was mainly because he was using two different colours of wood and didn't want one colour staining the other when sanding. The five pieces were dry fixed together to check that the overall shape and sizing was to Mick's

liking and it was left at that which took us up to the lunch break..

Our thanks go to the ladies who worked tirelessly in the kitchen for our benefit. Not only was tea and coffee available but also "Jacket Potatoes" at lunchtime for those of us who required a hot meal. Well done ladies your efforts on our behalf are very much appreciated.

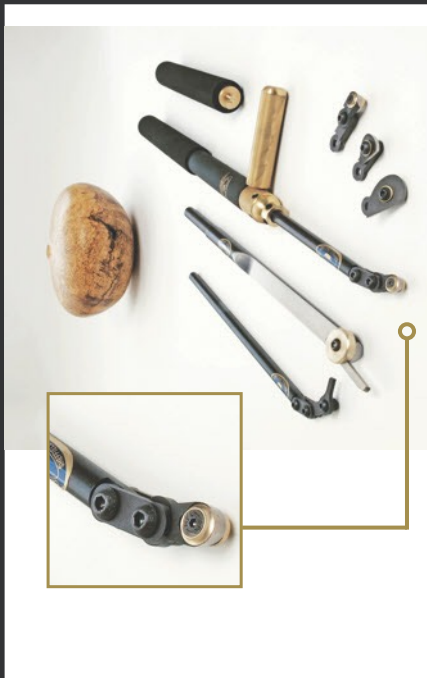

# INTRODUCING THE NEW REVOLUTION

The "revolution" is a completely new hollowing system from the world leaders in fine turning tools. From its beautifully weighted handle to its cryogenically treated cutting tips the "revolution" is designed to be the finest hollowing tool on the market.

The modular articulated design allows the woodturner the freedom and flexibility to configure the tool for any situation. From straight vases to heavily undercut hollow forms the "revolution" has it covered.

At the heart of the "revolution" is the new fully depth adjustable "super ring" the revolutionary design of the "super ring" ensures clean efficient wood removal at all times with 5 different cutting tips and modular articulation design the revolution is a must have tool for all woodturners.

- Supplied with 5 different cutting tips for unrivalled flexibility .
- Clever modular design allows for many different configurations.
- All collers and collets beautifully machined from solid "marine grade" brass billet.
- High performance cryogenically treated cutting tips for vastly improved wear resistance.
- New adjustable "Super ring" allows ultra efficient wood removal without clogging.
- Slim-line articulated tip design for unrestricted access to those hard to reach cuts.
- Expandable.
- Hand made in Sheffield, England.

The afternoon began with Mick choosing a piece of Ash to make a shield which he intended to colour and use as a wall hanging. Turning this piece exposed a crack which wasn't apparent initially but it gave Mick an opportunity to show us how to deal with it so that eventually it

Mick Hanbury turns the Shield

Ebonising

said he generally started with ebonising the piece as a background for the rest of the colours. He named a few different colours and asked members of the Audience to choose a colour from those he had named. Violet, Gold and Green were some of those chosen and Mick then began to apply them the results can be seen in the photographs. There was an awful lot of information Mick imparted to the interested audience, far too much for me to itemise in these pages. If you were unable to attend this meeting then I advise you to make sure you don't miss any more demonstrations

would be hidden from view. This done and the shield turned it was time to choose the colours to be used in forming the pattern. Mick

The shield before lacquer applied

## THE MAIL ORDER ABRASIVE SPECIALISTS

Sanding needs as much care as construction and design. As much care needs to be taken in sanding as in the construction of a piece of work. A few minutes poor sanding technique can irreversibly destroy great craftsmanship and many hours work.

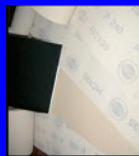

### THE ULTIMATE ABRASIVE! RB406 J.FLEX. TRIAL PACK

1M OF CLOTH IN EACH OF THE FOLLOWING GRITS.

P80, P120, P240 AND P320 **£14.75** INC VAT ORDER CODE **12806 RB406**

J.Flex is the best abrasive for every workshop. It's ideal for turning, woodworking and metal working. The distinctive blue abrasive with the yellow backing is the softest and most flexible abrasive we have ever discovered. The ultimate abrasive for all kinds of woodworking, especially sanding in acute areas. This cloth can be twisted and folded without grain dis-adhesion. Rolls are 100mm wide. **ALSO AVAILABLE BY THE METRE.**

### VELCRO-BACKED ROLLS.

TRIAL PACK 1M OF P100, P150, P240 AND P320 PLUS A SAMPLE STRIP OF VELCRO REPLACEMENT WITH PEEL OFF SELF ADHESIVE BACKING. **£14.75** INC VAT ORDER CODE 13159 ALSO AVAILABLE BY THE METRE. PLUS - IT PAYS TO BUY BIG. WITH OUR BULK RATE PRICES YOU'LL SAVE MONEY ON THE GRITS YOU USE MOST.

Cut off any length to suit your own sanding application. Every workshop should have at least two or three grades of this to hand. Especially manufactured by Hermes abrasives for us. Ideal for those shop made sanding devices which you can now make to your own specification. Hook and loop, or velcro attachment does away with the unpleasant task of clamping the paper to the machine, allows rapid changing of the sheet and encourages the use of more grits extending the finish quality and life of the abrasive. Rolls are 115mm wide.
